longer of offshoots remaining upon
you, back - & growth of roots, growing
outward in all directions and downward
downward - I. H. D. 1900, Vol. 1948 b. After
this when the new leaves come out it
goes up again. In early spring when the new
leaves come out they - ~~are~~ - grow out -
when new leaves come out toward the
bottom of the plant as rapidly as possible
and for the first few days the young
leaves remain below the ground for a few
days and then they come up and remain
near the surface - but the new leaves
come out from the bottom of the plant
gradually - young leaves when
approaching surface? - - -

Plant looks after it has been buried so
well & bottom - top - young
leaves.

22 M - when you all get ready
to return home. When you all go
back together - the ones remaining
here will be buried - don't worry about us
we will be buried - don't worry about us
