Gori Feeding Cannery with the trademark “KULA” was founded in 2009. At the present time, the company produces 250 types of products: natural juices, compotes, preserves, jams, sauces, salads and pickles.

Gori Feeding Cannery Kula is located in Gori, in the Shida Kartli region of Georgia.

The region is considered to be an important agricultural area for the production of fruit, vegetables and other crops. All the fruit and vegetables are picked and processed when they are ripe, in accordance with Georgian traditional patterns, but making use of modern technologies; thus all the nutritious qualities of the products are preserved.
