Tikka *Hunting and* *sporting arms* *1984*

Accuracy, safety, and reliability TIKKA's trademark.

TIKKA rifles and shotguns have all the refinements to be expected in top class weapons. They are manufactured to the highest standards of quality and precision. TIKKA strive continually to improve the accuracy, safety, and reliability of their products – the only aim PERFECTION.

The first TIKKA firearms were manufactured in 1918 for the Finnish Armed Services. Since then TIKKA has grown into a major manufacturer of target and sporting weapons. The range includes rifles for practically every purpose.

The TIKKA range includes M 55 (short action) and M 65 (long action) stalking rifles with optional heavy barrels, in standard or deluxe finish. Also specialized centrefire target rifles, the M 77 under and over shotgun, and M 07 combined shotgun/ rifle.

TIKKA's reputation for precision has made their name famous among gun experts throughout the world.

This reputation is not only based on superlative quality, but on advanced technical features such as free-floating barrels, detachable box magazines and the unusually slick bolt action.

These and many other special points ensure that TIKKA sporting and target weapons function perfectly – every time. TIKKA gives you the enjoyment of handling a superb weapon, good service and satisfaction for years to come.

Note for hunters
Always check that your rifle is 'on the button' before a stalking holiday, or at the beginning of each season, and again if at any time a shot seems slightly off. Even the best rifle can receive a knock, or a screw on the scope mounts can work loose.

Tikka M 55 Standard

Tikka M 55 Deluxe

Tikka M 65 Heavy Barrel

Tikka M 55 and M 65 Trapper

Tikka hunting rifles

A deer rifle must be reliable at all times regardless of the weather – for that vital first shot in the field, or under the stress of a long session on the target range. Choose a TIKKA rifle and have complete confidence in its quality, accuracy and reliability – characteristics which have been built into the design following years of experience, intensive product development and the greatest care in manufacture. The special bolt is a unique TIKKA design: free-floating barrels clear of the woodwork avoid all change of alterations in zero because of varying humidity. Nor has safety been neglected: the side safety catch on TIKKA rifles locks both trigger and firing pin, and is practically silent in operation, an important point in woodland stalking.

Tikka M 55 Standard

Although the basic model of the M 55 range, which has been designed for shorter cartridges, it has the same mechanical specification as others in the range, and is fitted with a quality walnut stock with palm-swell pistol grip, sling swivels and 17 mm scope dovetails. Cal. 17 Rem., .222 Rem., .223 Rem., 22–250 Rem., 6 mm Rem., .243 Win., .308 Win. Overall length 1070 mm, weight 3.3 kg. Barrel length 580 mm. Clip magazine for 3 cartridges. Trigger pull adjustable from 1 to 3 kg. Clip magazine for 5 and 10 cartridges also available.

Tikka M 55 Deluxe

A rifle for the discriminating hunter. Fine walnut stock with roll-over cheek piece ideal for use with a scope sight. Rosewood fore-end tip and grip cap. Cal. 17 Rem., .222 Rem., .223 Rem., 22–250 Rem., 6 mm Rem., .243 Win., .308 Win. Overall length 1070 mm, weight 3.3 kg.

Barrel length 580 mm. Clip magazine for 3 cartridges. Trigger pull adjustable from 1 to 3 kg.

Tikka M 55 Heavy Barrel

Pinpoint accuracy under all conditions makes this model ideal for long range varminting or for Walnut stock with rosewood fore-end tip and grip cap. Roll-over cheek piece. Palm-swell in pistol grip. Clip magazine for 5 and 10 cartridges also available. Width of fastening wedge for scope mounts 17 mm. Palm-swell in pistol grip. Clip magazine for 5 and 10 cartridges also available. Width of fastening wedge for scope mounts 17 mm. Cal. .222 Rem., .223 Rem., 22–250 Rem., .243 Win., .308 Win. Overall length 1110 mm, weight 4.0 kg. Barrel length 620 mm. Clip magazine for 3 cartridges. Trigger pull adjustable from 1 to 3 kg.

New lightweight model – 'Trapper'

TIKKA have recently introduced a lightweight model to the M 55 and M 65 range. It is quick-handling, feather-light to carry yet incorporates all the robust character of the standard rifles. The stock is walnut with a palm-swell pistol grip. 17 mm integral scope dovetails. Supplied with a detachable 5 – or 10 – shot magazine.

Tikka M 55 Trapper

Cal. 17 Rem., .222 Rem., .223 Rem., 22–250 Rem., 6 mm Rem., .243 Win., .308 Win. Overall length 1000 mm, weight 2.8–2.9 kg. Barrel length 520 mm, clip magazine for 3 cartridges. Trigger pull adjustable from 1 to 3 kg.

Tikka M 65 Trapper

Cal. 25–06, 6,5 x 55,7 x 64, .270 Win., .308 Win., 30–06, 7 mm Rem. Mag., .300 Win. Mag. Overall length 1030 mm, weight 3.0–3.1 kg. Barrel length 520 mm, clip magazine for 5 cartridges. Magnum calibers: clip magazine for 4 cartridges.

Tikka M 65 Standard

Tikka M 65 Deluxe

Tikka M 65 Heavy Barrel

Tikka M 65 Wild Boar

Tikka hunting rifles

The TIKKA M 65 (long action) Standard, Deluxe and Continental are made to the same basic design as the M 55 (short action) models, but are somewhat heavier in construction. A detachable magazine for 4, 5, or 7 cartridges is standard with all models and a 10 – cartridge magazine is available as an accessory. The detachable magazine can be easily removed and replaced, an important safety feature. All M 65 models can be loaded from the top with the magazine in place.

Tikka M 65 Standard

This is the basic model of the M 65 centrefire rifle series with a high quality walnut stock. The pistol grip incorporates a palm-swell for a better hold, and the trigger pull is adjustable from 1 to 3 kg. 17 mm integral scope dovetails. Cal. 25–06, 6,5x55, 7x64, .270 Win., .308 Win., 30–06, 7 mm Rem. Mag., .300 Win. Mag. Overall length 1080 mm, weight 3.4 kg. Barrel length 560 mm. Clip magazine for 5 cartridges. Magnum calibers: clip magazine for 4 cartridges.

Tikka M 65 Deluxe

One of TIKKA's most beautiful rifles. The stock is made from walnut with a rosewood fore-end tip. The cheek piece is of the roll-over type, and the pistol grip has a comfortable palm-swell. Trigger pull adjustable from 1 to 3 kg. 17 mm integral scope dovetails. Cal. 25–06, 6,5x55, 7x64, .270 Win., .308 Win., 30–06, 7 mm Rem. Mag., .300 Win. Mag. Overall length 1080 mm, weight 3.4 kg. Barrel length 560 mm.

Clip magazine for 5 cartridges.

Magnum calibers: clip magazine for 4 cartridges.

Tikka M 65 Heavy Barrel

A heavy-barrelled model for pin-point accuracy. The stock is dark, specially selected walnut with an oil finish. As in the Deluxe model, the fore-end tip is made of rosewood, and the cheek piece is of the roll-over type. The pistol grip also includes a palm-swell. 17 mm integral scope dovetails. The trigger pull is adjustable from 1 to 3 kg.

Cal. 25–06, 6,5x55, 7x64, .270 Win., .308 Win., 30–06, 7 mm Rem. Mag., .300 Win. Mag. Overall length 1120 mm, weight 4.3 kg. Barrel length 620 mm.

Clip magazine for 5 cartridges.

Magnum calibers: Clip magazine for 4 cartridges.

Tikka M 65 Wild Boar

Wild Boar's special features include an extended rear sight ramp and a short 520 mm barrel. As a result the centre of gravity is farther back

permitting faster shots. The Wild Boar is perfect for use in dense woodland where quick shots at short range make the open sights especially useful. Integral 17 mm scope dovetails are also incorporated. The trigger pull is adjustable from 1 to 3 kg. The walnut stock has a rosewood cap and the pistol grip includes a palm-swell. Cal. 25–06, 6,5x55, 7x64, .270 Win., .308 Win., 30–06, 7 mm Rem. Mag., .300 Win. Mag. Overall length 1040 mm, weight 3.4 kg. Barrel length 520 mm. Clip magazine for 5 cartridges.

Magnum calibers: clip magazine for 4 cartridges.

A hint to hunters

'Dry' firing practice with the rifle unloaded will accustom you to the weight of the trigger pull. All TIKKA rifles have adjustable triggers, which can be set to individual preference. Too light a pull can be dangerous.

Tikka M 55 Sporter

Tikka M 65 Sporter

Tikka target rifles

Sporting competitions on the range are ideal for perfecting alertness, reactions and speed. TIKKA target rifles have been developed specially for this type of match, a favourite National sport in Finland. They are also suitable for stalking. Accurate and well-balanced, they have a heavy barrel and fully adjustable firing mechanism. The robust design of the walnut stock and the patterned pistol grip ensure a steady hold in all situations. Clip magazine and open sights are standard, and the fore-end is fitted with a guide rail for swivels. Both target models have an adjustable cheek piece and butt-plate.

Tikka M 55 Sporter

Heavy barreled.
Cal. .222 Rem., .223 Rem., 22-250 Rem., .243 Win., .308 Win.
Overall length 1100 mm.
Weight 4.1 kg.
Clip magazine for 5 cartridges.
Trigger pull adjustable from 1 to 3 kg.
Walnut stock.
Clip magazine for 10 cartridges also available.

Tikka M 65 Sporter

Heavy barreled.
Cal. 6,5 x 55, .270 Win., .308 Win., 30-06.
Overall length 1100 mm.
Weight 4.5 kg.
Clip magazine for 7 cartridges.
Trigger pull adjustable from 1 to 3 kg.
Walnut stock.
Clip magazine for 10 cartridges also available.

A hint to hunters

If there are any malfunctions in the trigger or the firing mechanism take the gun to a professional gunsmith immediately.

Tikka M 77

Tikka shotgun and shotguns-rifles

TIKKA has a long tradition in the manufacture of double-barrelled guns. TIKKA shotguns and shotguns-rifles are easy to handle, well balanced, and highly accurate.

Tikka M 77

The TIKKA M 77 is a superb shotgun for clays and game. Sturdy construction and careful finishing leave nothing to be desired. Its stock is well shaped to fit the hand and cheek, becoming almost part of the user. A totally reliable safety system prevents accidental firing.

Cal. 12/70.
Overall length 1120 mm, weight 3.3 kg.
Barrel length 680 mm (27").
Chokes x - xxx (1/1-1/2) or
xx - xxxx (3/4-1/4)

Ejectors. Ventilated rib, width 10 mm.
Barrel selector. Walnut stock.
Monte Carlo model, Roll-over cheek piece.

Tikka M 07

The TIKKA M 07 is a shotguns-rifle which has much in common with conventional weapons. This can be seen in the design of the stock and the accuracy of the rifle barrel, which is as good as that of a bolt action rifle. Dovetails for attaching a telescopic sight are standard. Single trigger with instant selector between shotgun and rifle barrels.

Cal. .12/70-.222 Rem., 5,6 x 52R, 5,6 x 50R Mag.
Overall length 1030 mm, weight 3.2 kg.
Shotgun barrel length 635 mm.
Rifle barrel length 580 mm.
Ventilated rib, width 10 mm.
Barrel selector. Walnut stock and palm-swell in pistol grip.
Version with hair trigger (Stecher) available.

Tikka M 07

A hint to users

Keep the gun clean. Mop out the inside of the barrel with an oily patch. A shotgun can also be washed with warm water and dried. Care for your weapon and it will last your lifetime.

Tikka telescopic sights for rifles

TIKKA telescopic sights are made by a well-known Japanese manufacturer. They are waterproof and have a high-quality finish. Designed to withstand the roughest of handling, their accuracy is unaffected by heavy recoil. For big game hunting we recommend models 1, 2, 3, 8, and 9.

For small game models 2, 3, 8, and 9.

For target shooting models 4, 5, 6, 7, or 10.

Graticule

The graticule in the TIKKA Electro Point telescopic sight has an illuminated horizontal line and sighting point.

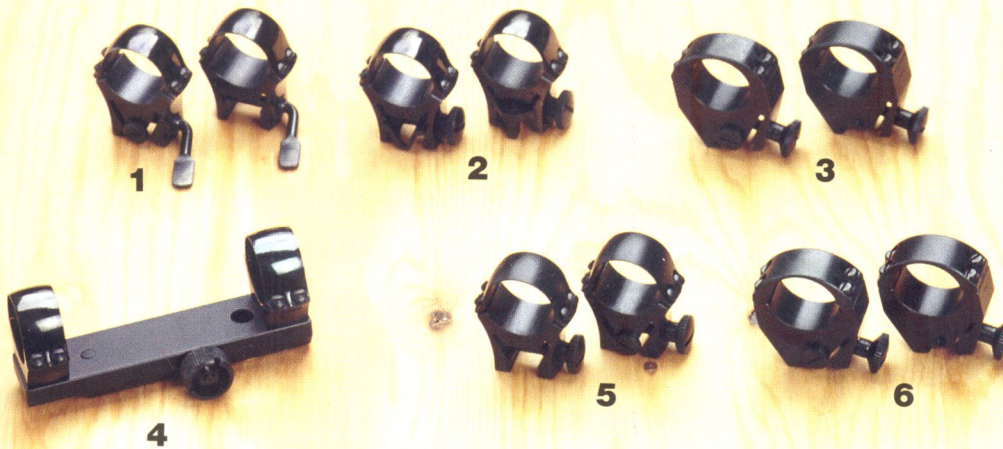

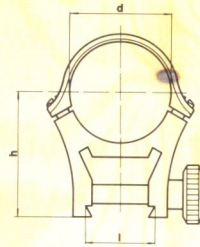

When it is dark, or if the target is in shadow, a switch can be used to illuminate the horizontal line and centre point, which will glow red and can be clearly seen on the target. In normal lighting conditions, the graticule need not be illuminated and it will appear black as in an ordinary telescopic sight.

All telescopic sights come with protective lens caps. (Gunmark: check if the above sight is legal in this country)

Special note: Avoid using gun oil in the form of an aerosol because the spray may penetrate the telescopic sight.

Scope Mounts

TIKKA scope mounts and other TIKKA accessories are designed and manufactured by our factory. When you choose TIKKA scope mounts for your gun you may trust that your scope sits firmly in place in all circumstances. It is easy to attach the scope to the TIKKA guns with the TIKKA scope mounts thanks to the dovetailed grooves in the top surface of the receiver. The TIKKA scope mounts are made of steel, an exception is the quick detachable mount for TIKKA shotguns M 07 and M 77 K, the base of which is an aluminium alloy.
