Fore-end	Bolt snap.

The Webley single barrel gun needs no introduction; thousands are in the hands of satisfied users in all parts of the world. It is a thoroughly sound and reliable general purpose gun, strongly built to withstand hard wear, with long range and hard hitting power. Each gun is hand finished and individually tested.

The safety mechanism is actuated by depressing the top lever which simultaneously withdraws the striker, leaving the gun in the half-cock position.

Loading and unloading can now be accomplished with perfect safety.

The Winchester Pump Action Gun

Model 1200

**SMOOTH, TROUBLE FREE ACTION, CHAMBERED 2 $\frac{3}{4}$ " CARTRIDGES,
PUSH BUTTON SAFETY CATCH**

The brand new 1200 has the strongest locking system in the world. Its rotating bolt head locks the barrel (just like lugs on a safe). Add to this the custom features; handsomely chequered, durably finished American walnut stock and forearm, fluted comb, pistol grip cap, engine turned bolt, recoil pad . . .

The new Model 1200 is one of the best slide action guns available.

Capacity—5 shells, magazine holds 4

Sights—Front, metal

Receiver—Aluminium alloy

Overall Length—46 $\frac{5}{8}$ " with 26" barrel

Stock Dimensions—Pull—14"; drop at comb—1 $\frac{1}{2}$ "; drop at heel—2 $\frac{3}{8}$ ". Fitted with Winchester rubber recoil pad.

Price with ventilated rib

B.S.A. Single Barrel Hammerless "Snipe" 12 Bore Gun

**HAMMERLESS, TOP LEVER, AND
AUTOMATIC EJECTOR**

The B.S.A. Snipe is a sturdy, general purpose, single barrel, 12 bore shotgun designed to give years of trouble-free service and pleasure. The barrel is bored and machined from solid bar and the generous barrel wall thickness will ensure continuous safe service with minimum maintenance. The striker is cocked and the barrel unlocked from the body by the single action of the top lever. The broad extractor provides mechanical prime extraction and spring-loaded ejection of the fired case. There is no protruding hammer and the safety catch is conveniently located at the rear of the trigger to present a gun of clean and simple lines. The snap-on forearm enables the gun to be taken down and put together in seconds. Hardwood stock. Half pistol hand.

SPECIFICATION

Barrel 30". Full Choke. Chambers 2 $\frac{3}{4}$ " or 3". Weight 6 $\frac{3}{8}$ lbs.

The Webley Bolt Action .410 Gun

Specification

Barrel	Length, 25". Modified choke, 2½" chamber, bead fore-sight.
Stock	Walnut stock, hand chequered and polished, with heelplate.
Bolt	Fitted with double bite as an added safety measure.
Extractor	Half moon. Anchored to prevent loss.
Weight	5¼ lbs.

DE LUXE as illustrated Model with horn heelplate and chequered.

STANDARD MODEL with birch stock, not chequered.

This model has been introduced to meet the demand for a low priced gun of sound construction. The bolt, as well as being fitted with double bite, is designed so that the gun can only be fired when the bolt is in the fully closed position.

The Webley "Sportsman" 3-Shot Bolt Action Repeater

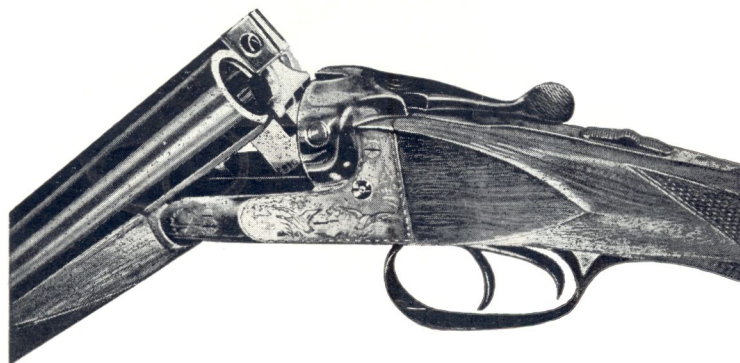

Specification 3-SHOT

Barrel	Length—24½". Modified choke. 3" chamber. Bead foresight.
Bolt	Incorporates cam to withhold striker from cartridge face until time of firing. Fitted with claw type extractor.
Stock	Good quality hardwood. Length 13¾".
Weight	5 lbs. 10 ozs.
Magazine	Capacity—two cartridges in addition to one in the barrel. If desired, the gun can be used as a single shot by placing only one cartridge in the magazine.
Safety Device	Automatic. Each time the gun is fired and the bolt withdrawn to extract the empty case, the gun is placed automatically on "safe." Depress the safety device before the next shot.
Cartridge	Foulong 2½" or 3" can be used in the magazine and the most popular shot sizes are 5 and 6. Foulong 2" can be used if fed separately into barrel.
Proof	Birmingham Nitro Proof to 5 tons per square inch pressure.

Sauer 12, 16 and 20 bores

F. N. Browning Under and Over Shotguns

A WELL-MADE UNDER AND OVER SHOTGUN AT A MODERATE PRICE

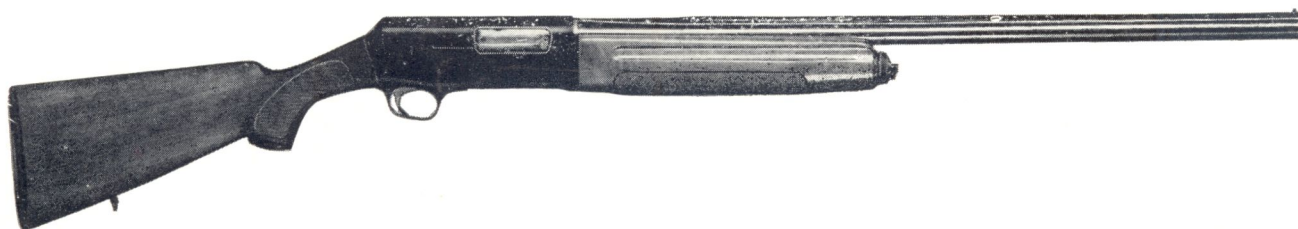

BORES : 12 or 20
AUTOMATIC EJECTORS

- Chambers:** The barrels are chambered for 2 $\frac{3}{4}$ " cartridges. **Rib:** Straight rib or ventilated rib.
- Safety:** The gun is fitted with a free safety (non-automatic). A special feature makes it impossible to fire the gun until top lever is completely closed.
- Finish:** Black. Neat engraving, fine border engraving and rosettes, with a garland of leaves at the breech of the barrels and on the top of the action.
- Fore-end:** The patent fore-end remains fixed to the barrels when dismantling the gun, thus avoiding risk of loss or damage to it. The movement is extremely simple—release the latch and slide the fore-end forward about $\frac{3}{4}$ ", open the gun in the normal way to separate the barrels from the action.
- Weight:** 12 bore, 7 lbs. 2 ozs. to 7 lbs. 8 ozs. 20 bore, 6 lbs. 1 oz. to 6 lbs. 5 ozs.
- Stock:** Straight or pistol grip in fine walnut, chequered, length 14 $\frac{1}{4}$ " approximately.
Standard Gun as illustrated. Extra for ventilated rib.
3" Chambers extra. Single Trigger no extra charge.
Lightweight Gun. Weight 6 $\frac{1}{2}$ lbs. 2 $\frac{1}{2}$ " Chambers:
Special Trap Model

Italian Franchi Automatic Shotgun
